

RoHS Information

RoHS Compliant: By Exemption

This part is RoHS Compliant with an exemption allowed by the Annex of the RoHS Directive 2011/65/EU. Typically exemptions on our parts are due to material exemptions and not application exemptions. The two most common material exemptions are: Lead (Pb) in copper below 4% (6 (c)), and Lead in ceramics (7(c) -I). Exemptions are allowed because it is not technically possible to remove the hazardous substance and maintain the properties of the material. As it becomes technically possible to remove the hazardous substances the exemption will be withdrawn.

The RoHS Compliance Exemption of any product so designated is based upon evidence from the producer (manufacturer) that the part number is exempt from the RoHS Directive. Mouser Electronics has taken all reasonable steps to confirm the producers' statements and other evidence to support the manufacturers' claims of compliance exemption.

Date: 09/04/2019
Mouser Part No: 660-RK73B1JTDD270J
Mfr.'s Part No: RK73B1JTDD270J
Mfr.: KOA Speer
Description: Thick Film Resistors - SMD 1/8watts 27ohms 5%

This information is valid when RoHS Compliance is indicated on your packing list from Mouser Electronics, Inc.
